Dear Mr. Vossler,

Just wanted to drop you a note regarding your exit signs we had installed in our school this summer.

Of all the up-dating and renovation we did to our college the Hybrid Exit Signs were the best investment. They really stand out! In a college with so many students the fact of good visibility is so important.

The Hybrid Exit Signs have twice the illumination of our original signs we replaced. AND, it took no time or effort to have it done. We are so happy to have made the decision to replace our old exit signs with the modern 'look' of the Hybrid Exit Signs.

I'm sure your company will grow rapidly when companies see the benefit of replacing out-dated technology with your product.

Sincerely,

A handwritten signature in black ink that reads 'Marion K. Allman'. The signature is fluid and cursive, with a long, sweeping underline.
